

Canadian Research on Literacy and Adult learning

Satya Brink

Satya.Brink@gmail.com

Most of these reports by Canadians researchers or Canadian organizations used either International or Canadian data. The International data included International Adult Literacy Survey and International Adult Literacy and Life Skills Survey. The Canadian surveys were The Labour Force Survey (LFS), Survey of Labour and Income Dynamics (SLID), Workplace and Employee Survey (WES), Adult Education and Training Survey (AETS) and Access and Support to Education and Training Survey (ASETS). This list includes reports since the first International Adult Literacy Survey in 1994 in order to give users an idea of the range of issues covered. The reports were selected for their value for policy makers, decision makers and practitioners.

Baldwin, John R. and Guy Gellatly. *Innovation Capabilities: The Knowledge Capital Behind the Survival and Growth of Firms*. The Canadian Economy in Transition Series. Catalogue no. 11-622-MIE—no. 13. Ottawa: Statistics Canada, 2006
